
Mens Toilet needs repair

Posted by colin - 2007/12/04 08:57

We need to repair the Mens Toilet so that it doesn't waste water. It requires parts internally

Last night (Tuesday) Doug, who is working on renovations at the Grand Hotel, told us that he would bring in the parts to fix the toilet and install them.

Praise the Lord!

Garth and his friends (John & Thomas) extended our repair toilets maintenance task into a renovate the toilets project. Over the Christmas period leading up to our first Christmas Day Breakfast they installed a new toilet and laundry sink in the mens bathroom and put up 1/2" plywood on the walls of both Mens and Womens bathrooms and painted them both. A terrific job in a very short time-frame.
